Homework Policy

Because of the complex needs of the pupils at Hillcrest School, the staff and the Governing Body do not feel that it is appropriate to have a formal homework policy. Any work given for pupils to do within the home setting will only take place with the co-operation of the parents and carers.

As part of the annual review of the EHCP and planning process, where possible, targets will be set for all pupils that may be worked on in a range of settings, including home, school and community. These may provide suggestions for ways in which parents and carers can support the work of teachers and therapists if they wish to do so, and should be appropriate to the individual needs of each pupil.
